

Electronics Rocks 2012

Electronics Design Engineers' Conference & Expo

30 & 31 August 2012

NIMHANS Convention Centre, Bengaluru, India

'Electronics Rocks' presents an exciting platform where India's design engineers can meet and exchange ideas over two power-packed days.

The event will feature keynotes, star speakers, technical tracks, workshops, expo, innovation demos, et al. Dedicated tracks on Chip Design and System Design (aka Circuit Design) are the two key elements of the conference.

KEY ELEMENTS

INSPIRATION TRACK

This is where you will get to listen to the keynotes, the innovators, the inspirers, et al.

SYSTEM DESIGN TRACK

Latest technologies, tools and best practices involved with System Design (aka Circuit Design) will be discussed here.

CHIP DESIGN TRACK

Latest technologies, tools and best practices involved in Chip Design will be discussed here.

DEMO ZONE (The Expo)

Latest technologies and tools will be demonstrated through an expo.

CALL FOR PAPERS!

Invite experts on 'Circuit Design' & 'Chip Design' to submit their proposed talks.
