Windows 8 upgrade for Windows 7 users @ Rs 699

Microsoft has announced Windows 8 upgrade for Windows 7 users in India at a price of Rs 699. The price of the upgrade has been slashed for Indian users as compared to its early upgrade, which was priced at \$15 (Rs 837). The offer is valid till 31st January 2013 only.

Those who have purchased a new Windows 7 PC preinstalled with original versions of Windows 7 Home Basic, Home Premium, Professional or Ultimate, with a matching and valid OEM certificate of authenticity, are eligible to avail the offer.

To avail the offer, users need to register at www.windowupgrade-offer.com

No more 16GB PlayBook from BlackBerry

If you are confused between buying a 16GB, 32GB or 64GB version of BlackBerry PlayBook, you can remove 16GB version from your list of options. Speculations are rife that RIM will discontinue making the 16GB variant of the PlayBook and only existing stock will be sold.

IBM bans Siri

If you work for IBM, you cannot use Apple's Siri at office anymore. You may call this decision too conservative but IBM is worried that Siri, the personal assistant feature on Apple's latest iPhone, will send confidential data straight to Apple headquarters.

Apple had introduced Siri on the iPhone 4S in October 2011. But it is yet not known to many Apple users that the handy tool beams every single thing they say to it back to the Cupertino giant's servers.

Wired Keyboard-Mouse Combo

The ET-KBC003 from Envent gives the users a free-flowing typing experience

The ET-KBC003 wired keyboard and mouse combo is not just sleek but also rugged and spill-resistant. The keyboard features membrane keys, which increase the key life of the keyboard. The ergonomically designed mouse prevents arm fatigue. The keyboard has a 104-key layout and is

compatible with Windows 2000, XP, Vista and 7.

The mouse offers a resolution of 1000 dpi for smooth and precise tracking. It can work on any surface, except glass.

The ET-KBC003 is available with three years of replacement warranty.

Price: ₹ 849

Portable scanner

The Handyscan from Compro Systems works without a computer

Compro Systems has introduced an ultra-light, handy and user-friendly portable scanner called the Handyscan. Powered by built-in batteries, the scanner works without a computer. Thanks to onboard flash memory, the images can easily be

stored in popular formats. The maximum scanning speed at a resolution of 600 dpi (max.) is 4 seconds.

Other features include 128MB internal memory, 32GB external memory support and USB 2.0 interface.

Price: ₹ 3400
