

Bringing the Power to Light™ with High Performance LED Drivers

Wide Input Voltage, Low EMI, High Power LED Drivers. Easy to Use, Flexibility by Design.

Architectural Lighting

Automotive Lighting

Solid State Lighting

The rapid growth of LED lighting applications in commercial, industrial and automotive markets has led to a wide variety of technical requirements for LED drivers. Micrel is meeting these challenges with its family of high performance LED drivers.

For example, the new 45V input, 70W, 3% accuracy constant current boost controllers like MIC3230/1/2 delivers the performance and flexibility needed. In addition to the PWM dimming and synchronization capability, these LED drivers also offer dither feature for EMI reduction up to 10dB thus providing an unparalleled performance for your solid state lighting applications.

For more information, contact your local Micrel sales representative or visit Micrel at: www.micrel.com/mic3230.

Ideal for use in:

- ◆ Solid State Lighting
- ◆ Street Lighting
- ◆ General Illumination
- ◆ Architectural Lighting
- ◆ Constant Current Power Supplies

	MIC3230	MIC3231	MIC3232
Input Voltage	6V to 45V	6V to 45V	6V to 45V
Synchronization	Yes	No	No
Dither	No	Yes	No
Frequency Range	Adjustable 100kHz to 1MHz	Adjustable 100kHz to 1MHz	Fixed 400kHz
Package	16-Pin TSSOP 12-Pin MLF [®]	16-Pin TSSOP 12-Pin MLF [®]	10-Pin MSOP
