IIT-Delhi and BEL to build active Sonar classifiers

The Indian Institute of Technology (IIT), Delhi, and Bharat Electronics Limited (BEL) are together developing active Sonar classifiers for Indian submarines that will help the navy differentiate between the enemy submarine and friendly ones. The sophisticated equipment will go for trials by the end of this year. This technology has been developed by Prof. Rajendra Bahl of Centre for Applied Research Electronics (IIT) along with Lt Cdr Akshay R. Prabhu and Prof. Arun Kumar.

we are aiming to capture 15 per cent market share in flat-panel category in India this year," Sharma added.

ViewSonic to stay focused on dual-SIM phones

With growing competition in the low-cost smartphone segment and companies like LG, Samsung and Micromax offering dual-SIM smartphones in India, ViewSonic plans to stay ahead in the market by offering the same build and performance quality at more affordable and impulsive price.

"ViewSonic will remain focused on smartphones with dual SIM and greater than 8.9cm (3.5-inch) screen. The size of this market is currently small, but fastest growing. We would like to be among top three in the segment," said Girish Mamtani, national

sales manager-mobility, ViewSonic Technologies India.

Talking about the company's upcoming products, Mamtani said that ViewSonic plans to soon launch the ViewPhone 4e, ViewPhone 4S and ViewPhone 5E in India.

Digi-Key to distribute Maxwell products

Global electronic components distributor Digi-Key Corporation will now distribute Maxwell Technologies products worldwide.

"As a global leader of energy storage and power delivery solutions, Maxwell Technologies is well-suited for Digi-Key's line card," said Dave Doherty, Digi-Key's vice president of global support and product operations. "We are pleased to offer Maxwell's ultracapacitor products to our global customers."

Reliable Switch Solutions For Industrial Controls
