

MEDI's range of sine wave inverter technologies

MEDI, established in 1987, pioneers in Analog, Digital, Power Electronics, Microcontroller, DSP and RF designs

300VA to 3KVA DSP based sine wave inverter with priority solar charging, cycle by cycle current limiting and short circuit protection, LED or LCD - Rs.1.7 lakhs. BOM of 800VAPCB=Rs.850

1KVA to 10KVA DSP based sine wave inverter with static change-over, priority solar charging, no-load shut down & load restart, mains & inverter short circuit protection, USB/RS232 interface-Rs.3.5 lakhs. BOM of 10KVA inverter = Rs.10000 (transformer extra).

3KVA to 30KVA three phase DSP based sine wave inverter with no-load shut down, load restart, VFD, USB/RS232 interface - Rs.5 lakhs. BOM of 30KVA three phase = Rs.20000 (transformer extra)

Other Technical know-how: IGBT based PWM type static voltage stabilizer-Rs.11 lakhs. BOM(50KVA) Rs.45,000. MPPT solar charger up to 10KVA >98% efficiency - Rs.7 lakhs. BOM of 5KVA = Rs.8000.

Product for sale-zero drop solar charger 12V 10A to 96V 80A. Cost of 12V/24V 10A = Rs.220, 24V 30A = Rs.450, 24V 60A = Rs.750, 96V 10A = Rs.1740, 96V 60A = Rs.3200. MEDIDC-CT +/- 80A = Rs.180.
