

Sensing Notebook

HP ENVY15 uses a proximity sensor to illuminate the keypad as the user approaches

HP's redesigned ENVY15 sports an all-metal chassis with rounded edges in a classic black and silver finish with accented subtle red details. Its Radiance Backlit keyboard has individual LEDs dedicated to each keycap. The keyboard works with an advanced proximity sensor to illuminate when it detects a user approaching the notebook.

The 39.6cm (15.6-inch) notebook features six built-in speakers and two sub-woofers. In addition, an aluminium analogue volume dial acts as a visual design cue working seamlessly with the Beats Audio Manager allowing users to adjust audio levels.

Price: ₹ 79,990

Multimedia Keyboard-Mouse Combo

The KM 200 kit from Genius includes an anti-spill keyboard and 800dpi optical mouse

Price: KM 200 PS2 - ₹ 750
KM 200 USB - ₹ 800

The KM 200 kit from Genius has a multimedia keyboard and an optical mouse to accelerate working efficiency. The low-profile keycap structure of the keyboard provides typing comfort. There are eight hot keys for media control and Internet usage.

The spill-resistant design stops

spills from leaking into sensitive parts of the keyboard. The 44×17.3×2.3cm³ mouse features an 800dpi optical sensor.

Weighing 503 gm, the KM 200 supports Windows 7, Vista and XP, and IBM/Pentium PC. A PS2 or USB port is available depending on the model and system requirements.

5.1-channel Multimedia Speakers

The new Zebronic speakers come with a wireless remote for easy adjustment of the speaker controls from anywhere in the room

Top Notch Infotronics has added five 5.1-channel multimedia speakers to the Sound Master line under the brand 'Zebronic.' Using a full-function wireless remote control, you can adjust bass, volume levels, mute and more from anywhere in the room. The system maintains accurate tonal balance even at low listening levels.

An in-built memory card reader enables you to directly play stored audio content, while the in-built FM tuner with preset function ensures you never miss your favourite radio pro-

grammes. Both FM radio and memory-card play can be controlled by the remote or by the on-system touch panel, with a front-mounted digital display of the settings.
