

Bright Science means design freedom and increased safety for LED lamps

LED lighting enables reduction in electricity consumption and long life. LED housings must deliver superior thermal management capability to dissipate the heat generated by the LED and keep the junction temperature of the LEDs lower. This has an impact on the efficiency as well as lifespan of the LED lamp. DSM's portfolio of thermally conductive Stanyl® TC enables excellent thermal management while enabling attractive designs at low cost and compliance to all safety standards.

TRY US BEFORE YOU TRY ELSEWHERE!

No.1 Vendor in India for Active & Passive Components

Specialized in:

- IGBTs • Mosfets • Tracs • SRCs • ICs • Short key Diodes • Crystals
- LDR • LEDs • Capacitors • Piezo Ceramic Elements & Buzzers

Stockist for Brands:

Authorised Distributors:
