

Elegance through the panel: High-current feed-through terminal blocks

Phoenix Contact – inventor of panel feed-through terminal blocks – is setting standards. With the new generation of feed-through terminal blocks in compact design, you can freely select the connection method. For reliable mounting, simply snap the inner and outer part together. Finished.

For use in every application

For your applications

- up to UL 600V
- from 0.2 - 150 mm²
- and up to 309 A

a complete range of products is available.
