

Launching all new **QT200nxg**

Taking you closer to the ultimate PCB test technology

The Next Generation Mixed Signal Test System

Over 1000 installations of
QT200 systems in more than
50 countries.

Applications

- ♦ Defence ♦ Aerospace ♦ MRO
- ♦ Telecom ♦ Railways
- ♦ Manufacturing Test ♦ Power
- ♦ Bio-medical ♦ Process Engineering

HIGHLIGHTS

- ♦ Enhanced 10MHz Digital Test Speed
- ♦ Integrated Boundary Scan Test as per IEEE 1149.1 & IEEE 1532 standards for latest generation chips
- ♦ User friendly GUI based TestDirector6 Software
- ♦ Multiple Test Methodologies
(In-Circuit, Boundary Scan, Digital & Analog Signature Analysis & more)
- ♦ Card Edge Functional Test with automated guided probe back-tracking
- ♦ Advanced QSM-VI with auto "Best Fit Curve" algorithm
- ♦ VHDL based device library with 33,000+ devices

— where standards are set; not matched.

INDIA ♦ SINGAPORE ♦ USA
