

Android Tablet Below Rs 6000

Wishtel's IRA series is powered by an 800MHz processor and supports Indian languages

Powered by the VIA WonderMedia WM8650 ARM 800MHz chip, the IRA and IRA Thing tablets by Wishtel have been designed and manufactured in India. Both tablets sport a 17.7cm (7-inch) screen and run the Android 2.2 OS (Froyo) that is upgradeable to Android 2.3. The company has announced that support for Linux will be rolled out soon. The tablets also feature Wi-Fi, 3G (via USB dongle), USB 2.0, a built-in camera and support for Indian languages.

The IRA tablet features a resistive touchscreen, whereas IRA Thing has a capacitive touchscreen, a slightly powerful RAM and longer battery life. Both the tablets are available through more than 350 distribution and support centres of Wishtel.

Price: IRA: ₹ 4000
IRA Thing: ₹ 5500

Mobile Keyboard

Microsoft's Bluetooth mobile keyboard 5000 can be used with iPads and numerous Android devices

For those who need the experience of a full keyboard when using a tablet, Microsoft has launched the 104-key Bluetooth mobile keyboard 5000. This keyboard can be connected to iPad1, iPad2 and numerous Android devices.

To PCs, it can be connected with a Bluetooth dongle, and is compatible with Windows OS. The keyboard is powered by AAA-size batteries and weighs 400 grams. It features a convenient curvy design with battery-status indicator.

Price: ₹ 3400

Mirrorless Camera

For your very mobile lifestyle, the highly compact and portable Nikon J1 goes everywhere you go

The Nikon J1 comes with 10-30mm f/3.5-5.6 and 30-110mm f/3.8-5.6 lenses. Both the lenses sport Nikon's proprietary vibration reduction technology. The electronic shutter brings the flash sync speed down to 1/60th of a second, but offers silent shooting and the ability to shoot 10 frames per second. The camera can continuously capture 13 frames at a shooting speed of 10 fps and 12 frames at 30 and 60

fps. It supports video recording too.

A built-in flash pops up at the push of a button and must be manually pushed back into the closed position. The camera is quick to focus and can be tuned into one of three configurations: single point (with a total of 135 points to select from), auto-area (41 points to select from) and subject tracking (to track moving objects).
