Touch Mouse

Logitech M600 with touch interface lets you navigate with your fingers

The Logitech M600 touch mouse lets you scroll and swipe wherever your fingertips rest on the mouse. The touch surface responds directly to your fingers—whether you

are surfing the Web or reading your e-mails. It doesn't matter which hand you use for mouse. Left-handers can easily reassign the right- and left-click buttons with SetPoint software. The Flow Scroll software gives you scrolling that is fluid-like—much like scrolling on your favourite touchscreen smartphone. Laser-grade tracking delivers precision on virtually any surface.

One unifying receiver connects up to six compatible devices. So add a keyboard, switch between mice, mix and match to fit your lifestyle—all without having to change nano receivers or sacrifice another USB port.

The mouse measures 11.1×6.4×2.9 cm³ and weighs 108 grams with battery.
