

Customized Dongles

MTS' customized MBlaze now available in 3 exciting avatars—music, gaming and lifestyle

Systema Shyam TeleServices Limited (SSTL) has come up with a new range of customised dongles MBlaze adorning a new avatar.

With these customised dongles, the company aims to build brand preference amongst the target customers through personalised form factors and customised VAS packs suiting one's need. Three fresh designs to be launched in the market are: Music dongle, Lifestyle dongle and Gamer dongle. The company is also planning to launch an interactive online platform to enable customers to even design their own dongles in the near future.

Customers just need to pay ₹ 1299 and do a first recharge of ₹ 888 to get the 8GB data usage with 30 days validity, all packed into a customised dongle of their choice.

Additionally, customers availing this will also get data usage worth more than ₹ 2600 and VAS services worth more than ₹ 700 (MTS TV, MTS Music and MTS Games On Demand).
