

Repair and Troubleshooting Tips

In today's era, we all keep various electronics gadgets. It is very obvious that at some point of time all of us need to troubleshoot problems with them. Here are some sites that will help you know how to fix different kinds of gadgets

RepairWorld

RepairWorld is an affordable solution for all computer/electronic technicians and hobbyists, and one of the largest electronic repair information sites. On the site, you will find a community of over 5000 dedicated service technicians, hobbyists and electronic enthusiasts. Newsgroup discussions cover many service topics, including computer, monitor, TV (including LCD and plasma), satellite, camcorder, VCR, audio, vintage electronics and much more. The site has around 122,000 service and repair tips that can save you countless hours of troubleshooting.

www.ifixit.com

iFixit

iFixit was started in 2003 by Luke and Kyle in a dorm room at Cal Poly, San Luis Obispo. This website provides free repair manuals and troubleshooting guides. It helps thousands of people repair their devices every day. Initially started for Apple products, it now provides step-by-step procedure along with supporting pictures and videos to fix problems related to any sort of electronic gadget through its thriving community of experts and repair technicians.

Electronic Repair Guide

Started in November 2006 by a Malaysian repair technician, this website is a useful resource that helps shorten the usually fairly steep learning curve for those who are new in the repair field. It uses a computer monitor as the guide to show how you can troubleshoot electronic problems easily. It also has a free newsletter that allows you to stay up-to-date with all the latest electronic repair news and learn electronic troubleshooting techniques and much more.

www.fixya.com

FixYa

In 2005, too many product manufacturers were neglecting post-purchase customer support. Frustrated by the lack of practical post-purchase information, entrepreneur Yaniv Bensadon set out to build a community resource capable of providing relevant and up-to-date troubleshooting data. Today, FixYa continues to empower individuals to repair and improve upon their already-purchased possessions. From fixing cars to cameras and iPhones, FixYans are part of a DIY revolution that helps empower techies, tinkers and hobbyists across the globe.

Electronics Repair
