ments, the first time they would make up more than half the market.

Worldwide server shipments declined 0.2 per cent

In the fourth quarter of 2012, worldwide server shipments declined 0.2 per cent. However, it was observed that the revenue increased 5.1 per cent from the fourth quarter of 2011, according to Gartner, Inc. For year-end results, worldwide server shipments grew 1.5 per cent in 2012, and server revenue declined 0.6 per cent.

"2012 was a year that definitely saw budgetary constraint, which resulted in delays in x86-based server replacements in enterprise and mid-size data centres," said Jeffrey Hewitt, research vice president at Gartner. "Application-as-a-business data centres such as Baidu, Facebook and Google were the real drivers of significant volume growth for the year."

Consumer electronics to get cheaper in Chhattisgarh

The state government of Chhattisgarh has cut the Value Added Tax (VAT) leading to low-cost mobile handsets, induction cooker, computer spare parts.

The announcement was made by the state government at the annual

budget for the fiscal 2013-14, which was presented in the Chhattisgarh Legislative Assembly. As per the statement, they announced to reduce VAT on mobile handsets costing upto Rs 3000, induction cooker, LED bulb and light, computer spare parts, flavoured milk and food colour from 14 per cent to 5 per cent, reported Business Standard.

Panasonic initiates solar lantern project in India

Panasonic, the consumer electronics brand has decided to foray into the highly prospective solar energy sector in the country by launching its 100 Thousand Solar Lanterns project. The basic aim of the project is to contribute a total of 100,000 solar LED lights across the globe by 2018.

The company has also informed that around 5000 compact solar lights have been allotted to off-grid areas in India.

Rechargeable solar LED lantern by Panasonic

The Japan-based company has joined hands with the likes of World Health Partners, Swayam Shikshan Prayog, Plan International India and Sahaj in the areas of Bihar, Andhra Pradesh and West Bengal in India, who will be contributing 5000 units of solar lights.

Wipro AssureHealth Platform launched on Microsoft Technologies

Wipro Technologies has launched the Wipro AssureHealth platform in partnership with Microsoft. This is primarily targeted at healthcare providers to deliver innovative solutions for Remote Fetal Monitoring and Cardiac Care that will ensure high-quality treatment at reduced costs, especially for chronic diseases.

The Wipro AssureHealth platform leverages Microsoft's Cloud, Mobility and Analytics offerings to allow care providers to monitor patients regularly and precisely. This is done through hosted services and mobile apps that integrate medical devices, IT Infrastructure and 24/7 customer support, to deliver highly scalable solutions.

Bharti Airtel, Opera Software launch India's First 'Opera Web Pass'

Bharti Airtel and Opera Software announced the launch of Opera Web Pass for customers in India. With Opera Web Pass, first-time mobile Internet users in the country are now able to subscribe to affordable and simple pay-as-you-go services for their Airtel mobile phones.

A subscriber just needs to start Opera Mini on his mobile phone, click Opera Web Pass in the speed dial start page and choose from a list of web pass subscriptions, allowing Airtel mobile customers to purchase from a range of user-centric packages to suit their Internet access needs.

Red Hat, Intel join hands for open source big data innovations

Red Hat has extended its strategic collaboration with Intel to jointly innovate and develop enterprise big data solutions through the open source community. As the first step in its big data collaboration, Red Hat plans to build solutions using
