LIFT INVERTERS AVAILABLE

MULTI-TURN POTENTIOMETER MODEL NHP22/NHHP22

Our Association has recently launched 10 Turn wire wound and hybrid construction models NHP22 (wire wound) and NHHP22 (hybrid). These models are suitable for consumption and all applications as per international standards. These models are having many features like linear loading, stainless steel shaft, stainless steel cap, stainless steel cord, Phosphor bronze sliding silver plated terminals, high resistance to vibration and shock, assured reliability life and optional features like high operating torque, rotation up to 360°, Special customized marking on shaft, Swivel resistance 5 degrees tolerance etc. and 100% conformance. These models have successfully passed all necessary endurance tests like life cycle, environmental tests etc. and also proven in various industrial applications.
