

Electronics Rocks: Academia Edition

Gopi Kumar Bulusu, CEO, Sankhya Technologies, presenting a tutorial on agile development with models and the Teraport platform

Vinay Chaddha, owner, GVC Systems, speaking on collaboration of faculty and students to develop commercial projects

Ganesh Shankar, MD, FluxGen Technologies, talking about the latest developments in the solar industry

The conference was aimed at improving engineering education in India by promoting interactions between the industry and the educational sector to formulate a mutually beneficial curriculum. It discussed the requirement for engineering labs, and how to help upgrade them into centres for student innovation in electronics. There were also sessions by industry leaders on the latest advances in the electronics field, so as to keep academia up-to-date on the evolution of electronics technology and also to create an interest among students to pursue a career in electronics.

Leading Eco & Smart Solutions by Fujitsu Semiconductor

Naoki Yamada (visualisation solutions dept., Fujitsu Semiconductor Limited, Japan)

A section of the audience

Vijay Kumar Sharma (senior product engineer, marketing), Fujitsu Semiconductor Asia Pte Ltd, India branch

The seminar introduced some of Fujitsu Semiconductors' leading products and solutions such as automotive solutions, microcontrollers, power management ICs and FRAMs. Some other topics discussed were automotive infotainment, trends and graphics SoCs, cluster solutions, OMNIVIEW, integrated HMI, microcontrollers, power management ICs and FRAMs.

EFY Workshop for Students

Workshop for students by Col. N. C. Pande (retd.) of EFY Tech Center

A section of the audience

Workshop for students by trainer Nidhi of EFY Tech Center

The workshop presented career opportunities available to electronics and communication engineering students. A presentation was made by the faculty of EFY Tech Center, Delhi. Career prospects in the following fields were also covered: Embedded systems, VLSI, PCB design, telecommunication and instrumentation.
