Saharsa Electronics Pvt Ltd: Components & PCBs

UPSInverter.com: UPS System

Vi Technology: Automatic Optical Inspection System

Renesas Electronics Corporation

Sunil Dhar
general manager,
India branch office
Renesas Electronics
Singapore

Renesas Electronics Corporation is the world's No. 1 supplier of microcontrollers (MCUs) and a premier supplier of advanced semiconductor solutions including MCUs, SoC solutions and a broad range of analogue and power devices.

The company began its business operations as Renesas Electronics in April 2010 through the integration of NEC Electronics Corporation and Renesas Technology Corp, to form the world's largest semiconductor company with operations spanning research, development, design and manufacturing for a wide range of applications. Headquartered in Japan, Renesas Electronics has subsidiaries in more than 20 countries worldwide.

In 2011, Renesas Electronics expanded its operations in India by establishing a branch office in Bengaluru, offering full-fledged technical support to customers in India. It also offers the full range of Renesas products and India-focused applications such as automotive, industrial and consumer electronics. Besides the main office in Bengaluru, Renesas Electronics also has branch offices in Delhi and Mumbai.
