

Get Integrated— It's Quick, Easy, and Reliable

Easily Integrate Industrial Ethernet and Fieldbus Devices

Moxa's innovative industrial Ethernet gateways are making it easy for industrial automation operators to implement Ethernet-based networking technologies—including PROFINET, EtherNet/IP, and Modbus TCP—for centralized control applications. Moxa's gateways feature:

- **Quick** installation, in just minutes
- **Easy** to maintain, with built-in monitoring and diagnostics
- **Reliable** performance, for uninterrupted operation
