

The Winners

EFY Jury Awards

Electronics Leader of the Year:

Dr Ajay Kumar, Joint Secretary, DeitY, Govt of India

Electronics Organisation of the Year: Panasonic India

Lifetime Achievement Award:

N. Ramachandran, MD, MEL Systems and Services Ltd

Best initiative by a Government Body/PSU:

Department of Electronics and Information Technology, Govt of India

Certificate of Excellence for Government

Organisation of the Year: C-Dot, Govt of India

Certificate of Excellence for Emerging Organisation

of the Year: MyBox Technologies Pvt Ltd

EFY Readers' Choice Awards

Capacitors: Vishay

Resistors: Vishay

Diodes & Transistors: Vishay

LEDs: Osram

LED Drivers: Texas Instruments

Sensors, Transducers, Actuators and Related ICs:

Honeywell

Switches and Relays: Omron

Connectors: Phoenix Contact

Microcontrollers: Atmel

EDA Tools: Cadence

Multimeters: Fluke

Oscilloscopes: Tektronix

Soldering and Desoldering Stations: Weller

Educational Kits and Trainers: Vegakit

Solar Cells: Moser Baer

Solar Panels: Tata Power Solar Systems

SMF Batteries: Exide

Inverters: Microtek

UPS Systems: Microtek

Programmable Logic Controllers: Siemens

EPABX & Key Telephones: Panasonic

CCTV Cameras: Bosch

Training Institutes (Electronics): Jetking

Pick and Place Machines (SMT): Juki India

Printed Circuit Boards: PCB Power

EMS Organisations: Flextronics

EFY Awards 2012

And the Winners are!

The ninth edition of EFY Awards were given away on 15th March at a ceremony held in the Le Meridien Hotel, Bengaluru. The event recognised the contribution of leading organisations and leaders in the Indian electronics industry. The principal secretary to the Karnataka government, Department of Industries and Commerce, Government of Karnataka M.N. Vidyashankar graced the occasion as the guest of honour.

EFY Awards aim to honour India's leading brands, organisations and individuals from the field of electronics. These awards were made possible only due to the efforts of readers of our publications, who cast their votes and helped us decide the winners in 26 different categories of the Readers' Choice Awards.

As always, EFY Awards continue to evolve with the advancing electronics industry, by implementing changes to its methodology. Motivated by various

initiatives taken by the state and central government to promote the electronics industry in India, EFY decided to give a fourth jury award to recognise the best initiative by a government organisation.

The nominations for some of the jury awards were tightly contested, thus the jury instituted certificates of excellence for organisations that also deserved to win.

Last, but not the least, over the years, EFY has realised that the word 'nominee' did not do justice to the top 5 brands that got voted for by the readers, as the top 5 brands in their respective product categories. Hence, we decided to name them just-EFY Readers' Top 5 Brands. These changes have been incorporated to ensure that the EFY Awards stay relevant and valued.
