

Do-It-Yourself Projects

Internet is a rich resource for people who love to explore. Here are some websites that are useful especially for hobbyists who want to try their hands on do-it-yourself projects

popularmechanics.com

This website is useful for those hobbyists who want to build, fix and customise the technology in their lives—from houses to hot rods to gaming systems or electronics. The site has several sections and the DIY Central section has many DIY articles on various topics. The tech section of DIY Central includes topics like Raspberry Pi, Arduino and other similar electronics. You can also find detailed project plans, expert advice and communities where you can share ideas with other users.

www.popularmechanics.com/

www.diy-electronic-projects.com/

diy-electronic-projects.com

This website has a good collection of DIY electronics projects, sorted in several categories. There are approximately 300+ projects to try your hands on.

electronics-diy.com

This site too has a good collection of different projects. It also has different sections like electronic store, electronic blog, electronic schematics and tutorials. The tutorial section contains tutorials on PIC microcontrollers, EAGLE PCB and on how to make printed circuit boards (PCBs).

<http://www.builditsolar.com/>

builditsolar.com

This site provides plans, tools and information to help you build renewable energy and conservation projects. The site has reference to hundreds of projects—from changing a light bulb to building a solar home. The best part is that the site does not have anything for sale. The site also has a list of renewable energy discussion forums, where you can discuss your project related issues.

doityourself.com

Doityourself.com, founded in 1995, is the leading independent home improvement and repair website. The site is mainly divided into three sections: how-to's, forums and 'did it myself.' The 'did it myself' section has projects on various topics. The site also includes a dedicated section on electrical & electronics. You may freely link to this site, and use it for non-commercial use, subject to terms and conditions of use.
