

The report stated that South Korea-based Samsung Electronics sold some four million smartphones during the first three-four months of 2013 and remained market leader with 40 per cent market share.

New telecom gear testing norms for India

To combat the threat of potential cyber attacks, India will shortly be framing new gear testing standards for all telecom and communication gadgets. The CCRA (Common Criteria Recognition Arrangement) isn't proving adequate precautions for the global standards of telecom gears and the security bar needs to be raised.

The Department of Telecom will be working in association with the National Research Organization and Department of Electronics and IT for an added CCRA certification. This was confirmed by a confidential note circulated by the National Security Council.

Taiwan considering to shift 10 per cent FDI from China to India

Taiwan is considering to shift to India 10 per cent of its total investments in China. Informing this at the ESDM Conclave hosted by Indian Chamber of Commerce in New Delhi, recently, Chung Kwang Tien, ambassador of Taiwan to India, said that manufacturing cost in China is increasing, hence, Taiwan is looking towards India as the next electronics manufacturing hub.

Presently, Taiwan's FDI to India is as low as 1.2 per cent of total Taiwan's FDI, and its trade with India is just 1.05 per cent of the total Taiwan's trade.

Vietnam invited to set up electronic clusters in India

The Indian government has invited its Vietnamese counterpart to set up electronic manufacturing clusters in the country. Two MoUs were signed between the countries for partnership in information, communications and technology.

According to IT Minister Kapil Sibal, the Vietnamese government has been invited to set up an electronic
