SERVOTECH
Smart Power Solutions

Real Source of Power Backup Solution Specially in OEM

Single point customer support all over India with 100 engineers nationwide : service@servotechindia.com

Serving more than 200 corporate clients & more than 50000 installation in government departments

Online UPS

1KVA-20KVA (1:1 Single Phase, 3:1 Single Phase)

Features

- High frequency and double conversion online technology
- Wide input voltage range
- LCD display
- Advanced battery management
- Network/tan/modem surge protection
- Smart RS232 communication with monitoring software
- Optional SNMP card slot

Solar Hybrid Inverter

800KVA-10KVA (1:1 Single Phase)

Features

- Built in high capacity charge controller
- Pure Sine Wave Output with low THD
- High Efficiency & High reliability
- It can charge from Solar as well grid with solar priority
- High surge capability (upto 300%) for starting heavy load
- Equipped with heavy duty grid charger
- User-friendly LCD display

Servo Stabilizer

20KVA-1000KVA
(1:1 Single Phase, 3:3 Three Phase)

Features

- Advance Microcontroller based
- Configurable metering parameters
- Capable to handle all Balance & unbalance load
- User friendly display
- Protections against low/high voltage, over load, short ckt, single phase preventor
- Dimmer type models 20kva-500kva
- Roller based linear models 200-1000kva
- Fast correction speed 20V to 105V (Customizable)

Sine Wave Solar UPS

1KVA & 2KVA (1:1 Single Phase)

Features

- Intelligent charging ensuring more battery life
- 10% more solar energy is harvested by using MPPT solar charger
- Auto priority logic to charger from both mains & solar simultaneously
- Normal & Computer mode operation of the UPS
- No load sleep: If the load is less than 20W, the inverter will go to automatic sleep and save power
- Auto wakeup : Inverter will switch on automatically when the battery is charged by solar to predetermined level

Industrial Online UPS

20KVA-300KVA (3:3 Three Phase)

Features

- Latest floating point (DSP) Technology
- Unity Input Power Factor
- IGBT PWM Rectifier & Inverter Technology
- Advanced battery management
- Advanced Communication Capabilities
- Perfect Generator compatibility
- Customizable as frequency converter
- Regenerative Load Capability
- No Load Battery test feature.
