

LASER World of PHOTONICS INDIA

PROGRESS in LIGHT

12-14 November 2013 • Bombay Exhibition Centre • Mumbai

Why participate at LASER World of PHOTONICS INDIA 2013 ?

- **Complete range of photonics** - LASER World of PHOTONICS INDIA presents the full spectrum of the photonics industry - components and manufacturing equipment.
- **Expert knowledge and industry know-how** - LASER World of PHOTONICS INDIA also hosts concurrent seminar. The 2013 show will feature a concurrent conference in association with The Optical Society (OSA).
- **Attractive Synergies** - The collocation with other Messe Muenchen tradefairs like 5th Intersolar India and 7th analytica Anacon will create attractive synergies and added value for the exhibitors and visitors.
- The show will also feature International country pavilions from **Germany, Japan, China and UK**

Visitor Profile

- Automotive
- Aviation / Aerospace
- Clothing / Garment
- Contract manufacturing / Job shops
- Electrical engineering / Electronics
- Jewellery / Diamond cutting
- Photovoltaic
- Precision mechanics / Optics
- Science / Research
- Semiconductors
- Telecommunications
- Toolmaking / Machine manufacturing

Supported by

- Indian Laser Association (ILA)
- The Optical Society of India (OSI)
- Photonics Society of India (PSI)
- The Optical Society (OSA)
- OptecNet Germany
- SPECTARIS
- Imaging Association of India

Product Categories

LASER World of PHOTONICS INDIA 2013 focuses on the entire range of laser and photonics technologies:

Photonics Components

- Lasers and optoelectronics
- Optics
- Manufacturing technology for optics
- Sensors, test and measurement
- Services

Photonics Applications

- Laser systems for production engineering
- Optical measurement systems
- Optical information and communication
- Biophotonics and medical engineering
- Imaging
- Illumination and Energy
- Security
