

devices to gain popularity and acceptance amongst consumers. Continuing the trend, more and more original equipment manufacturers (OEMs) are planning to introduce tablet PCs in the 25.4cm (10-inch) screen size. If you plan to buy one, here are some basic things to keep in mind in order to make the best choice.

WHY BUY A 25.4CM (10-INCH) TABLET?

To ensure the purchase is worth the money spent on it, you need to answer one basic question before buying a big-screen tablet. That question is: Do you really need a big-screen tablet? There are a host of small screen tablets in the 17.7cm (7-inch) screen size currently available in the market. For obvious reasons, tablet PCs with 25.4cm (10-inch) are expensive compared to the smaller tablet PCs. Hence, it becomes important for you to know why you are spending on such a device. Ideally, a 25.4cm tablet should be bought only for one of the following reasons:

1. More built-in memory. Big-screen tablets offer better built-in memory capacity, like 32 GB or 64 GB. This kind of memory is worth it if you want to use the device for storing music, films or games.

2. You need to type a lot. If you need to type a lot on a regular basis, a larger screen is a better choice, as it provides bigger keys on the on-screen keyboard.

3. You want to carry your movies around with you all the time. If you are a movie buff, big-screen tablets are a boon for you. The bigger screen allows better viewing of the movie you want to watch while on the go.

Factors to look for in a big-screen tablet

Resolution. Modern-day tablet manufacturers use five main resolution classifications: 800x600 (WVGA), 1024x600 (WSVGA), 1024x768 (XGA), 1366x768 or 1280x800 (WXGA) and 2048x1536 (QXGA). A large-screen tablet with a higher resolution offers a more appealing and enjoyable viewing

HERE ARE A FEW OPTIONS WORTH CHECKING OUT

iBall EDU-SLIDE i1017	Acer W510	Simmtronics Xpad X1010	HP Elitepad 900
			
Price: ₹ 13,999	Price: ₹ 53,999	Price: ₹ 7,799	Price: ₹ 45,500
- Wi-Fi enabled 2MP primary camera 1.5GHz ARM Cortex-A9 dual-core processor - Android v4.1 (Jelly Bean) OS 0.3MP secondary camera 25.7cm (10.1-inch) capacitive touchscreen - Expandable storage capacity of 32 GB	- Full HD recording - Windows 8 (32-bit) OS 25.7cm (10.1-inch) LED backlit TFT LCD display 8MP primary camera 2MP secondary camera - Wi-Fi enabled - Internal storage capacity of 64 GB	1.2GHz Cortex-A8 processor - Expandable storage capacity of 32 GB 0.3MP front camera 25.7cm (10.1-inch) TFT LCD capacitive touchscreen - Wi-Fi enabled - Android v4.0 (Ice Cream Sandwich) OS	8MP primary camera 0.3MP secondary camera 1.8GHz processor - SIM slot - Windows 8 Pro OS 25.7cm (10.1-inch) capacitive touchscreen - Wi-Fi enabled

SHAVISON™

Peripherals for Industrial Automation

• SMPS

• Relay Interface Modules

• SSR Interface Modules

• FRC/D-SUB connector

• Opto Interface Modules

• Diode/Resistor Modules

• Power Distribution Modules

• Redundancy Modules

• Analog Signal Converters

• Dedicated Controllers
