

Innovative Technology Tools from Qmax

Mantis Elite-Cam Stereo Microscope with Integrated USB Camera

Mantis Elite-Cam from Vision Engineering is an ergonomic stereo microscope with outstanding optical performance & effortless image capture.

2X – 20X magnification

Superior ergonomics improves accuracy and reduces errors

Patented stereo optics provide amazing 3D imaging

First-class performance with long working distance

Shadow-free true colour LED illumination

Factory integrated and sealed 1.3 MP USB 2.0 camera

Simple image capture or powerful annotation & measurement software

PicoScope

Pico Technology offers General Purpose 8, 12, 16 bit oscilloscopes & mixed-signal oscilloscopes (MSO) that combine fast sampling rates with class-leading deep buffer memories. Have built-in Function Generator and many have AWGs. Combining performance & portability all models are USB powered.

Channels : 2 or 4

Bandwidth : 10 MHz – 20 GHz

Maximum Sampling : 50 MS/s – 5 GS/s

Memory : 4 KS to 2 GS

Authorized Distributor in India :
