

MPPT Solar Charge Controller

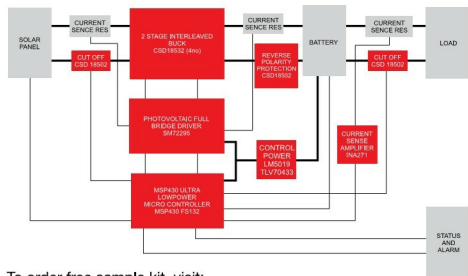

www.ti.com/in

Check out for the Highly efficient, 12V / 24V, 20A Solar Charge Controller Solution with Maximum Power Point Tracking (MPPT).

Key Solution Features:

- Interleaved Buck Stages to give lower ripple currents, better efficiencies at full 20A.
- Electrical Efficiency > 97% and MPPT Tracking Efficiency > 99%.
- Implements P & O algorithm using MSP430F5132 device.
- 3-Stage Battery Charge Profiling for Lead Acid Chemistry.
- Under Voltage protection, Reverse Polarity Protection for the Battery

TI Hero Products in MPPT Solar Charge Controller

- CSD18502
- CSD18532
- SM72295
- TLV70433
- MSP430 F5132
