

Intex Dual-Sim Smartphone

Intex Aqua Octa Smartphone with 'True Octa-Core CPU'

The war in the segment of smartphones with octa-core processors seems to be heating up. A month after showcasing its first octa-core smartphone, Intex has finally announced the launch of Intex Aqua Octa in the country. The smartphone is powered by a MediaTek MT6592 true octa-core processor. Intex Aqua Octa packs a 15.2cm (6-inch) 720p HD display and runs on Android 4.2 aka Jelly Bean operating system. Other features of the phablet include 2GB RAM and 2300mAh battery. It also offers 3G support along with a 13MP rear camera and a 5MP front camera. The smartphone offers dual-SIM support. The smartphone is available across the country.

Lenovo Brings A10—An Ultra-Portable Android Notebook

Powered by Cotex-A9 quad-core processor

Lenovo has announced the launch of the IdeaPad A10, its first Android-based dual-mode notebook. The company has priced the device strategically, making it affordable yet feature rich. The Lenovo A10 comes with 10-point multitouch and flips 300 degrees. It is thin and light making it ultra-portable for the users to carry. The device weighs approximately 1kg, and features a 25.7cm (10.1-inch) screen display and enables users to instantly switch between two modes—laptop and stand. This multimode touch device provides the ultimate flexibility between work and play with

up to 10 hours battery life. It is powered by Cotex-A9 quad-core processor, packs 0.3MP webcam. Its integrated speakers allow users to stay connected with friends and family through video chats. In addition, the full-size AccuType keyboard with individual rounded keys is comfortable and enables accurate typing. The notebook runs on Android 4.2. It packs memory up to 2GB DDR3L 1600MHz (1GB/2GB). It is available at all Lenovo exclusive stores, multi-brand outlets, large-format retail stores and thestore.com

Panasonic KX-MB1500 Series Printers

Offer convenient copy functions

With the help of Panasonic's range of KX-MB1500 series printers, you can take care of all your office requirements, including print, copy, scan and fax functions from one compact machine.

The KX-MB1500 series covers two models, i.e. the KX-MB1520CX and KX-MB1500CX printers priced at ₹ 8999 and ₹ 10,990, respectively. These allow you to save a large amount of office space which can be used for other requirements. Its handy slanted control panel lets the user conveniently operate it whether sitting or standing.

You can also check the file on a PC before printing,

or edit it by rearranging pages or changing them to a 2-in-1 or even a 16-in-1 format. With convenient copy functions such as Quick ID copy, PC fax and colour scanner, the KX-MB1520CX printer comes with built-in digital speakerphone which adds to your convenience.
