

WW Share No.1 in photocouplers

We will continue boosting production to bring these devices to the world.

* Revenue in 2011 and 2012, Source: Gartner, "Market Share: Semiconductor Devices, 2012" 1 April 2013

Toshiba's photocouplers

Thanks to the low power consumption, small and thin package size, and variety of line-ups, Toshiba's photocouplers have earned the world's highest sales revenues*. From 2013, we began operating a new factory in Thailand to reinforce the stable supply of these high quality devices at a lower cost.
