

plication And Facilitation Centre by Confederation of Indian Industries (CII) in partnership with the Gujarat government and Gujarat NRE Coke at CII building, Sahu said that the Union Government had selected 1,000 acres of land for setting up the manufacturing facility in Prantij, 15km from Ahmedabad, and project will begin soon.

Aakash 4 will not be tested at IITs

India's ambitious Aakash project that is often embroiled in controversies—from delayed and defective shipments and consumer complaints to blame game with IIT Jodhpur and its assembler Quad Electronics—now plans to learn from the past mistakes. This time around, government has decided to keep the IITs aside, and the tablets will now be tested and certified by Centre for Development of Advanced Computing (C-DAC).

The Directorate General of Supplies and Disposals has issued a tender for Aakash 4 and 17 vendors will be bidding to manufacture the device. The list of vendors includes Dell, Acer, HP, HCL, Microsoft and Micromax amongst others. Moreover, Datawind, who has been building the Aakash tablets so far, will also bid to build this low-cost tablet.

Solar developers prefer imported equipment

The recent round of bidding for solar projects under the Jawaharlal Nehru National Solar Mission (JNNSM) has got an amazing response from solar project developers. There were bids from 68 companies for 122 projects totalling 2170MW, opposed to an allocated target of 750MW.

According to news sources, the US-headquartered Azure Power (200MW), Welspun (160MW), IL&FS (150MW) and Essel Infra (100MW) are the major bidders. Winners in the bid would be those who seek for the least amount of funding for selling their power at a fixed tariff of ₹ 5.45 per kWh to the corporation.

Delayed BIS codes hurting manufacturers

Electronic products manufacturing organisations are insisting that the Indian government quicken the process of acquiring compulsory recommendation tags from the house of Bureau of Indian Standards or BIS.

According to a recent report, the Indian government has already objected to extend the deadline for

the product certification process. For this reason, the electronic good manufacturing companies feel this delay in getting BIS tags are slowing down the launch schedules for new products.

As a result of this condition of getting BIS tags, The Manufacturers' Association has requested the Indian government to extend the deadline for getting BIS tags. However, the govern-
