ULTRA PORTABLE & HANDY THERMAL PRINTERS

Need to print on the go? Try out our series of Ultra Portable and Handy Thermal Printers.

EPM Series Printers offer extremely easy integration into your designs. With patented design for plastic enclosure and indigenous electronics development, this printer is perfectly suited for the Indian market and conditions.

Salient Features:

- Multiple Interface Options
- RS232, USB, Bluetooth, Wifi, etc
- 2-inch paper width & 2 different roll sizes
- Single Supply operation – 5V only
- Universal ESC sequence compatible

Multiple Font Sizes

• 24, 32 & 42 Character Per line

Graphic Printing Supported

Regional Font support available!

Inbuilt Head and Motor Protection

Customizations Possible

READY TO USE SOLUTIONS

We also have a wide array of ready solution to cater to the dynamic need and requirements of todays industry.

- Solar Charge Controller
- Solar Street light driver
- DC-DC / AC-DC LED Driver
- Digital Panel Meter
- Temperature Controller
- And Many More...

* Samples & Demo Available

LOOKING FOR HIGH QUALITY ELECTRONIC COMPONENTS?

Silicon Components is one of the leading distributors of semiconductor products and electronic components in India. We offer a wide array of complementary products from Microcontrollers & Active Components to Wireless Modules, Sensors & Coils.

- Microcontrollers
- Colls & Transformers
- Bluetooth & Wifi Modules
- LI-Io & LI-Po Batteries
- Power & Battery Management
- Analog & Interface Products
- Crystals & Oscillators
- GSM & GPS Products
- Humidity and Temperature Sensors
- Mosfet & Mosfet Drivers
- High Power LED's
- And Many More...
