

Toshiba's Optimum Solutions for Solid-state Lighting Applications

TC62D902BG

LED DRIVER

PFC Module built-in
Opto coupler-less
Valley switch operation
Protection function

VDSS(V)	ID(A)	PACKAGE	PRODUCT
800	3	DPAK	TK3P80E
	6	TO-220	TK6A80E
	10		TK10A80E
900	2	DPAK	TK2P90E
	7	TO-220	TK7A90E
	9		TK9A90E
	7	TO-3P(N)	TK7J90E
	9		TK9J90E

Power MOSFET

Toshiba offers a wide variety of MOSFETs that help reduce product size and power consumption, such as MOSFETs in ultra-small, thin packages and those with ultra-low ON-resistance that can be driven at a low voltage.

LEDs LETERAS™

Toshiba's second generation LETERAS™ white LEDs offer a cost-competitive advantage, allowing manufacturers of general purpose and industrial LED lighting to drive down costs.

White LEDs for lighting applications

GaN-on-Si

1.0-W, 6450 Package

TL1 Fx Series

GaN-on-Si

1.0-W, 3535 Package

TL1 Lx Series

GaN-on-Si

0.6-W, 3030 Package

TL3 Gx Series

GaN-on-Si

0.2-0.5-W, 3014 Package

TL2 Fx Series
