

Only scope

with a built-in spectrum analyzer.

New!

MDO4000B

Mixed Domain Oscilloscope

- 1 Time Domain Display
- 2 Frequency Domain Display

New! 802.11ac Wi-Fi testing.

The world's first oscilloscope with a built-in spectrum analyzer

Introducing the world's first and only mixed domain oscilloscope. For the first time ever, you can capture time-correlated analog, digital and RF signals for a complete system view of your device. See both the time and frequency domains in a single glance. View the RF spectrum at any point in time to see how it changes with time or device state. Solve the most complicated design issues, quickly and efficiently, with an oscilloscope as integrated as your design.

Products available on DGS&D Rate Contract :

TLA6400 Series
Logic Analyzer

AFG3000 Series
Arbitrary Function Generator

PWS4305
DC Power Supply

FCA3003
Frequency Counter 3 GHz
