

This is no place for beta testers.

There's a lot riding on the accuracy of your field measurements. Why take a chance on an unproven instrument, when the success of your mission or even national security could be at stake? Count on Anritsu—now in our ninth generation providing handheld Vector Network Analyzers (VNAs) that take the precision of a test lab into the field. Only Anritsu offers you:

- ▼ 350 μ s sweep speed—over twice as fast as any other handheld VNA.
- ▼ Full performance over the specified temperature range to +55° C, even while battery powered.
- ▼ Best dynamic range across a wide range of frequencies—over 100 dB at 3 GHz and greater than 85 dB at 20 GHz.
- ▼ Best handheld spectrum analyzer dynamic range – greater than 116 dB!

*Designed and
Manufactured
in U.S.A.*

Anritsu's VNA Master™ family is made in the USA, by the company that pioneered the handheld VNA. Why would you choose anything else? Find out more and download our complimentary field guide, **Advanced VNA Cable Measurements**.
