**Complete Engineering Laboratory solutions
for Science, B.E, ME, and Phd Branches**

- ▶ MSP430 Stamp Modules- DIY Kit
- ▶ Spartan-6 Based FPGA Trainer kit with USB JTAG
- ▶ Davinci-Processor based DSP Video Development Kit
- ▶ DSP 2812 based Motor control Application Kit
- ▶ Intelligent 3- Dimensional Robotic ARM Application Development Kits
- ▶ 2.0 Ghz Microwave communication Trainer Kits
- ▶ 4.0 Ghz Spectrum Analyzer – 50% discounted price (Pre-launch Offer - Valid for Limited Period)

LED/LCD DISPLAY SYSTEMS

- ▶ LED/LCD advertisement display solution.
- ▶ 7" LED screen with Video driver board- kit
- ▶ 22", 32" LED TV kits- Unassembled
- ▶ 32" 3D LED TV kits- Unassembled
- ▶ P8,P10,P12 LED modules with control cards for advertisement displays
