

The Trusted Leader for Any Measurement

NI data acquisition products are the most trusted computer-based measurement devices available, offering superior accuracy and maximum performance. NI CompactDAQ systems feature more than 50 measurement specific modules and complete breadth and depth of I/O. Coupled with the analysis and signal processing capabilities of NI LabVIEW software, this platform puts the power of graphical system design at your command so you can build any measurement system faster.

LabVIEW system design software offers unrivaled hardware integration and helps you program the way you think – graphically.
