M0516Z

Nuvoton NuMicro Family ARM Cortex™-M0 32-bit MCU

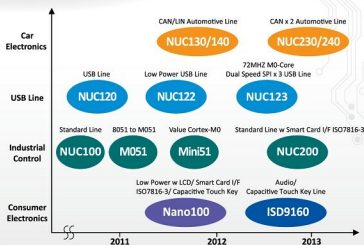

M051™ Series

Applications:

- Industrial Control
- Security Systems
- Motor Control
- High-Speed Data Collection and Calculations
- Communication Systems

Key features:

- ARM® Cortex™-M0 core running up to 50 MHz, 45DMIPS
- Single-cycle 32-bit hardware multiplier
- Wide operating voltage range (2.5V - 5.5V)
- Low power standby current in Sleep mode and Deep Sleep mode
- EBI (External Bus Interface) for external memory-mapped device access
- Internal oscillator, ±1% accuracy at room temp.
