

Jelly Bean Tablet Launched

Huawei MediaPad 10 Link 'the mini theatre' offers stunning display and long-lasting battery

Huawei has launched its much awaited tablet—MediaPad 10 Link, a sleek and light tablet which offers stunning display, with full HD video playback, super-fast processor and long-lasting battery. Running on Android Jelly Bean 4.1 operating system, the most attractive feature of the MediaPad is its 25.7cm (10.1-inch) full HD IPS display. It is a delight to both viewers and the users and can be easily termed as 'the mini theatre.'

The MediaPad comes with the mighty 1.2GHz Quadcore Hi-Silicon processor added to the 16-Core GPU functionality. Decked with 1280×800 pixels HD display, it takes the user through a visually stimulating experience.

It is equipped with 6600mAh battery, which ensures continuous up to 6-hour gaming or 8-hour video playback. Powered by dolby surround sound technology MediaPad 10 Link provides crystal-clear sound and enhances the overall experience of music and movies. MediaPad 10 Link comes with 16GB ROM which is expandable up to 32 GB.

Phablet with 2G Connectivity and Voice-Calling

HCL ME Connect 2G 2.0 phablet offers enhanced 2G voice-calling, long battery life

HCL Infosystems has launched its latest phablet—HCL ME Tablet Connect 2G 2.0. The 17.8cm (7-inch) phablet is powered by a 1GHz ARM Cortex A9 processor with 1GB DDR3 RAM and 4GB internal memory expandable up to 32 GB running on the latest Android Jelly Bean 4.1.

HCL ME Connect 2G 2.0 comes with freebies worth more than ₹ 2000 and pre-loaded with applications, such as BigFlix, Hungama, Readwhere, Paytm, Facebook, Twitter, etc, that allows one to watch unlimited movies, download songs, video chat or click pictures with the aid of a dual-camera (front 0.3 MP and rear 2.0 MP). The voice receiver, integrated with a vibrator function, transforms this tablet into a smartphone.

Watching movies is a delight on the phablet as it has the multi-touch capacitive screen with an 800×480 pixels resolution inte-

grated with mini-HDMI port which helps connect the tablet to external display devices. The device gives a superior 2D/3D gaming performance. It is complimented by a long-lasting 3800mAh Li-polymer battery.

Other features include 3G connectivity through a USB (WCDMA/EVDO), Bluetooth and Wi-Fi (802.11 b/g/n). It also comes with an integrated Wi-Fi router function which helps you create a wireless hot-spot so as to share your device Internet connection with other devices.
