India invites Japanese electronics industry to establish semiconductor fabs in India

In a bid to attract investment in electronics industry, India has invited Japanese industry to invest in the country and benefit from the support being offered by the government. Anand Sharma, commerce and industry minister, spoke to a team of top Japanese industrialists headed by Keidanren (Japanese Business Federation) Chairman Hiromasa Yonekura.

Sharma said, "Government of India has decided to offer a package of incentives to attract domestic and global investments into Electronic System Design & Manufacturing (ESDM) sector within Electronic Manufacturing Clusters (EMCs) Scheme. In addition, the government has recently approved the proposal for setting up of two semiconductor wafer fabrications (FAB) manufacturing facilities in the country."

He has invited the Japanese companies to invest in India and avail the subsidies, and other support, that the Indian government offers, for establishing FAB facilities in India.

No land available for semiconductor project in Gujarat

Even as the Indian government earlier gave a nod for setting up of an electronic chip manufacturing plant at Prantij, the Gujarat state government has now revealed that there is simply no land available for the ambitious project. As such, the state government may find it difficult to allot land for the ₹ 290,000 million chip plant.

"Some 500 acres of land is available at Vaghpur, but it is meant for a proposed central university. We have no application from any industry to
