

India's leading manufacturer of Power Resistors.

Popular products

KHA series – Aluminum Housed Resistors

High performance Molded Power resistors for virtually any resistive application.

KABR series – Metal Clad Braking Resistors

Designed for high peak power applications. Ideal as Braking resistors.

KSA series – General Industrial Silicon coated Resistors

High performance general purpose Silicon coated Wire wound Power Resistors.

Custom Resistors

With Custom resistors forming as much as 40% of our sales, we can make resistors of any shape, power and terminations! Contact us for further details

KWK Resistors India is formed out of a Joint Venture between the well-known resistor manufacturer - K S Instruments Pvt Ltd, and two of Europe's leading resistor manufacturer - Krah Group and Widap. The team involved have over 40 years of experience designing and manufacturing resistors for Industrial, Medical, Aerospace, Automotive, Transit and all other applications that require the best Power Resistors.

With offices in Bangalore, Pune and a Distributor network growing all the time, we can service your resistive requirements promptly!

Resistors for a wide range of applications:

General Purpose Resistors

Variable Resistors

Braking Resistors

Custom Built Resistive Loadbanks
