

Smart Ideas,
Intelligent Design,
Incredible Scale

Enter Freescale's Kinetis L Series MCU Design Challenge

If you can imagine it, you can build it with Freescale Kinetis L series MCUs—an extension of one of the world's most scalable, energy-efficient MCU portfolio. This family of MCUs combines the exceptional energy efficiency and ease of use of the ARM® Cortex®-M0+ processor with the performance, peripheral sets, enablement and scalability of the Kinetis 32-bit MCU portfolio.

Take advantage of this unique chance to work on your next big idea, showcase your imagination, enhance learning and win peer recognition and prizes.

First prize: INR 100,000

Second prize: INR 75,000

Third prize: INR 50,000

Also, the top 50 entries will receive one hardware tool and one version of CodeWarrior Special Edition software to create a design that is smarter and helps make the world a cleaner, greener place.
