DoT demands all mobile devices to be IPv6-compatible from next year

Department of Telecom (DoT) has come out with a 'National IPv6 Deployment Roadmap' to enable IPv6 transition in the country in a phased and time bound manner.

One of the most significant requirements in this regard is that all mobile phone handsets/data card dongles/tablets and similar devices used for Internet access supporting GSM/CDMA version 2.5G and above sold in India on or after June 30, 2014, shall be capable of carrying IPv6 traffic either on dual stack (IPv4 and IPv6) or on native IPv6.

DoT has also clearly stated that contents and applications providers should target to adopt IPv6 (or dual stack) for new contents and applications by June 30, 2014, for the existing

lot latest by January 1, 2015.

IESA announces its executive council for 2013-14

The India Electronics and Semiconductor Association (IESA) has announced its executive council for the year 2013-14. As per the announcement, the new chairman of the trade body would be Sanjeev Keskar, managing director sales, India & SEA, PMC-Sierra. PVG Menon would continue as president of IESA this year as well.

Ashok Chandak, senior director, global sales and marketing, NXP Semiconductors India, will be the new vice chairman, and Vivek Tyagi, country sales director, Freescale Semiconductor, will continue as treasurer for this tenure as well. Dr Satya Gupta, immediate past chairman and chief executive officer, Concept-2-Silicon Systems, would continue on the executive council in his capacity as advisor.

EnStorage goes live with a 50kW, grid-connected HBR flow battery

EnStorage, a developer of large scale electricity storage solutions, has produced the first ever grid-connected Hydrogen-Bromine (HBR) flow battery. The 50kW battery was connected at the company's test site in southern Israel and provides up to 100 kWh of energy.

"This is a major milestone and a step forward towards larger capacity products," says Dr Arnon Blum, president of EnStorage Inc. "With the 50kW system we have refined our ability to manage multiple battery stacks, which is key to providing a modular and cost-effective storage system for our customers."

Delhi's ISBT will now be Wi-Fi-enabled

Cities are increasingly recognising the importance of Wi-Fi. The latest news is that Delhi's biggest bus terminal, the Maharana Pratap Inter-State bus terminus (ISBT), will now be Wi-Fi-connected. The bus terminal operates bus services from Delhi and seven other states.
