

2013 Silicon Labs Tech Day "June 3 ~ 7, 2013"

Make Your Design Easier and Time-to-Market

How to simplify your design and meet the requirements of performance, energy efficiency and system cost, it becomes a big challenge for designers. Welcome to join 2013 Silicon Labs Tech Day, you will learn about

- How to use mixed-signal silicon devices, software and development tools and make your design easier
- How to select the best devices for your design
- How to get significant advantages in performance, space and power consumption

It is the best opportunity to get information and communicate with us, please register now at www.edom.com.tw/en

Agenda
