

Table II: Some Toolkits from Different Manufacturing

	INDE	Advance Tech	Sumitron	Sparkfun	MB Electronics
Measurement tool					
Smart tweezers	Available separately	Siborg make ST-5L	IDEAL-TEK ST-1R	No	No
Multimeter	Fluke make DMM	No	No	Yes	No
Hand tools					
Needle-nose pliers	yes	Goot Japan make YP-1	AVEN precision pliers	Needle-nose plier	Bent, flat and long nose
Tweezers	Strong Grip Tweezer and Fine tip straight tweezer	Goot Japan make TS series	IDEAL-TEK make precision tweezer	Yes, curved for SMD components	Yes
Snips and clippers	All purpose heavy duty	Piergiacomini Italy make TRE-03-NB	Hakko make snip	Diagonal cutter	Yes
Wire stripper	yes	Toki make wst-1	IDEAL Industries make stripper	Yes	Yes
Screwdrivers	All in one kit	Engineer Japan multi purpose	AVEN make screw-driver set	Screwdriver set	6-pc precision screw-drivers
Crimping tools	Multi purpose crimping tool	Engineer Japan make PA series	IDEAL Industries make multipurpose	No	No
IC extractor	yes	No	Yes	No	PLCC extractor, IC extractor
Precision knife	yes	No	No	Yes	Utility knife
Soldering tools					
Desoldering pump	Weller make desoldering Pump	Goot Japan make GS-108/ GS-100	Hakko make desoldering pump	Yes	Yes
Soldering iron	Soldering iron and solder aid kit	No	Not with the kit	70W variable-temperature soldering iron	30-watt solder iron
Solder	yes	No	Kester Singapore make solder	Yes	Yes
Soldering wick	yes	Goot Japan make cp-2015	ITW Chemtronics make solder wick	Yes	No
Flux	yes	Interflux singapore make IF-8300	Kester Singapore make flux	Liquid flux pen	No
Magnifier	yes	Advance Tech make E-230	AVEN make magnifier	Monocle magnifier	No
PCB holder	No	Goot Japan make SU-1S	REECO make PCB holder	Yes	No
Brush	yes	No	No	No	Yes
ESD-safe wrist strap	yes	No	No	No	Anti-static strap
Prototyping tools					
Breadboard	No	No	No	No	No
Solid-core wire roll	No	Interflux singapore make with no residue technology	Kester make solid core wire	Yes, two colours	Yes
Others	Bosh make power drill, magnetic pick up tool, needle file set, Insulation tape, hammer.	None	None	None	Mini flashlight, heat-sinks, hex key set, file set

these things handy in a kit. With a breadboard and solid core wires you can immediately start working on a project. So if you are getting all these, consider it as a bonus.

The best thing about these toolkits is that you can carry your lab along with you wherever you go. To get the best results, consider recommendations while selecting a complete

toolkit or assembling your own. Table II includes some models from different manufacturers. ●
