Convertible Tablet Laptop

WishTel IRA Capsule comes bundled with a physical keyboard, making it the perfect hybrid device

WishTel, the makers of IRA range of Android tablets, has introduced its first convertible tablet laptop called IRA Capsule. The tablet comes with a 25cm (10-inch) display that comes with a keypad and includes 3G data connectivity.

The tablet features a 25.6cm LED multi-touch screen and runs Android 4.1 aka Jelly Bean version. The device is powered by a 1.6GHz dual-core processor, coupled with 1GB RAM. The hybrid tablet sports 5MP rear camera and 0.3MP front-facing snapper for video calls.

For connectivity, the tablet houses Bluetooth, Wi-Fi, built-in SIM slot for 3G and HDMI output. The device offers expandable memory storage up to 32 GB via microSD slot. The device is also capable of running 1080p video via HDMI output. WishTel has loaded this neat looking device

with an equally powerful 8000mAh battery.

The company has preloaded the Capsule with applications including Wish learning, Wish studio, Wish TV, Wish news, Wish video calling, and more.

The device could offer the perfect tablet alternative at an affordable price point with a physical keyboard attached to the slate.
