HTC has announced that it will make five HTC One smartphones plated in 18-carat gold. The limited edition device is reportedly being produced in order to celebrate the 18th anniversary of the MOBO Awards in the UK.

A new range of gaming PCs

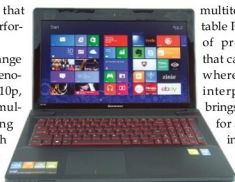

Lenovo's latest portfolio includes the much-awaited, CES award winner—the Lenovo IdeaCentre Horizon 27

Lenovo has launched a new range of gaming PCs, which are powered by Intel Core i7 processor and run Windows 8 operating system. This move signifies Lenovo's entry into the high-potential gaming space that caters to the Next Gen PC user with products that offer robust performance.

The new range includes the Lenovo IdeaPad Y510p, which boosts multimedia gaming with stylish looks along with easy options to add more storage or graphics. Equipped with high-performance graphics and

audio that makes it a true multimedia powerhouse, the Y510p is a very good option for serious gamers.

Also part of the new portfolio is the much-awaited CES award winner—Lenovo IdeaCentre Horizon 27, which is the world's first multitouch, multimode table PC with hundreds of pre-loaded games that can be played anywhere at home. This interpersonal device brings families together for a shared computing experience.

Price: ₹ 50,990 (IdeaPad Z510),
₹ 69,990 (IdeaPad Y510p),
₹ 136,500 (IdeaCentre Horizon 27)

Chromebooks now in India

Chromebooks are easier to use, boot up in seconds, and automatically stay up-to-date and hassle-free

In India, as access to the Web increases, more people are living out their lives online. In this increasingly connected world, computing should be fast, secure and hassle-free. You need to be able to access your stuff and get things done from wherever you are. Chromebooks are a new type of computer from Google, designed to help you get things done faster and more easily. Designed to make computing faster, simpler and more secure for everyone, Chromebooks have become the go-to laptop for many people around the world. And if you love using Chrome on your PC, you'll get going on a Chromebook within seconds.

From this month, Indians will be able to enjoy the Chromebook experience with the launch of the Acer C720 Chromebook and the HP Chromebook 14. Light and portable, the Acer C720 Chromebook slips easily into a bag or purse and has over eight hours of battery power to last you the whole day. The HP Chromebook 14 has a brilliant 35.56cm (14-inch) screen, which makes watching YouTube videos, or video chatting with friends super comfortable.

Chromebooks are easier to use than traditional computers as they boot up in seconds and automatically stay up-to-date and hassle-free. There's no need to worry about security updates, anti-virus protection or malware—Chromebooks just work.

Price: ₹ 22,999 (Acer), ₹ 26,990 (HP)
