

Submitting articles

I am a third year B. Tech student and an electronics hobbyist. I want to know the procedure for submitting articles and circuits designed by me for publication in your highly esteemed magazine.

Ratan Pal Singh
Kolkata

EFY: Please send the article to editsec@efyindia.com. For editorial guidelines, you may refer to the link: <http://efy-mag.com/WI-EDT.pdf>

EFY Tech Centre at Bengaluru

I am an engineering student travelling over 90 km every day to attend college, and EFY has been my greatest companion on my journeys. It has been a wonderful tool to sharpen my skills for the past two years. There is one more reason to be proud of being an EFY subscriber—it is an independent Indian publication.

It would be of great help to us if you re-start your training centre at Bengaluru. There are a lot of people in desperate need of it.

Anjan Kumar
Bengaluru

Projects for students

I am a student of electrical engineering from Pakistan. I need a project from EFY. How can I purchase it?

Mohsin
Peshawar

EFY: Please contact EFY's associate partner Kits'n'Spares (info@kitsnspares.com) to purchase any project.

MATLAB software project

I am an M. Tech student interested in the project '555 Timer Using

From Facebook: EFY's Electronics Design Community

I want to extend my congratulations to the creator of this page. It has helped me a lot in my projects. I am very much interested in your articles and I hope soon I shall also start contributing articles.

Pablo Andrés Cabrera

□ Does any one have the circuit diagram of 'Electric Bug Zapping Racket'?

Yashu Varshney

EFY: You may refer to 'Electric Bug Zapper' circuit given under Circuits section on electronicsforu.com website.

□ Dear EFY, I would love an online course on gEDA by your experts on this community.

Adhiraj Ghosh

MATLAB.' I need the project along with the source code for it.

Sayed Awad
Mangalore

EFY: You may refer to the '555 Timer Design Using MATLAB' software project published in EFY's July 2013 issue. You can purchase EFY back issues from the www.efymagonline.com website using a credit card.

The source code can be downloaded free of cost from the link: <http://www.efymag.com/admin/issuepdf/> software.rar

EFY DVD

I have purchased EFY Plus magazine but didn't find Deeds software in the EFY DVD of October issue.

Raja Reddy J.S.K.

Anantapur, Andhra Pradesh

EFY: We were unable to feature the Deeds software in this month's DVD, because we realised that the software was still in a beta-testing stage and thus we didn't want to compromise our readers by using this tool.

In case you still want to use the tool (beta version alert), you can download it from the link: http://www.esng.dibe.unige.it/deeds/Bin/Deeds_Setup_2012_11_12_ver_1_71_030.zip

From electronicsforu.com: Circuits

What is the overall cost of the 'Environment Monitoring System Using Arduino' construction project published in EFY's August issue?

Mahima Gore

Reply: The overall cost was ₹ 700, excluding Arduino, when I designed it.

Ronnie Adhiraj Ghosh

□ We need the source program for the 'Propeller Message Display with Temperature Indicator' construction project published in EFY's July issue.

Balakrishnan

EFY: The source code can be downloaded from <http://www.efymag.com/admin/issuepdf/Propeller%20Display.zip>

'Spot An Error' Award Winners

In the circuit idea 'Earth Fault Indicator' published in October 2013 issue, the layout symbol for transistor BC547 (T1) is not correct in Fig. 4. The transistor should be mounted just the reverse way.

Sujit Koley

□ In the 'GizMo ByTes' section of October 2013 issue, under the heading 'Samsung Galaxy Tab 3 T210 in India,' instead of DDR2 RAM, what has mistakenly appeared is DR2 RAM.

In the construction project 'Variable Bench Power Supply with LCD and Monitor Display' published in August issue, under the 'Interface and display circuit description' section on page 102 it is wrongly mentioned that preset VRI is used to adjust the contrast of LCD. It should be preset VR2.

Siddharth Kaul

In future, we will try not to feature any tool that is still in beta-testing stage.

ATEasy was also not included in the DVD because the download link didn't work after they released a new version in September.

We apologise for any inconvenience caused.

Electronics Rocks 2013

Successfully completed the EFY workshop on '90 Minutes To Build Your First Android Apps' at Electronics Rocks 2013, Bengaluru.

Thanks to EFY for giving us this opportunity to attend such a wonderful workshop!

Vikrant
