Halogen free engineering plastics for surface mounted devices

With high speed of innovation the electronics industry is developing thinner, smaller, smarter and more sustainable electronics. Our Stanyl® Fortii™ allows thin wall housings for wide range of surface mounted devices which need to withstand high reflow temperatures and exhibit good co-planarity post soldering.

MOSPEC SEMICONDUCTOR CORP.

- Power Transistor
- Schottky Rectifier
- Small Signal Schottky Diode
- Ultra-Fast Recovery Rectifier
- Fast Recovery Rectifier
- High Efficiency Rectifier
- T.V.S. (Transient Voltage Suppressor Diode)
- EPI Wafer
- Prime Polished Wafer

IGBT BASED STATIC UPS WITH SOLAR COMPATABILITY

The Perfect combination of Solar, MPPT and Static UPS is here.

Static UPS : 1) DS PIC Based IGBT Design. 2) Could Easily Replace on line UPS (with Lots of cost saving). 3) Over Load and short ckt. Protections in UPS mode as well as mains mode. 4) Suitable for Heavy Surge Loads. 5) Compatible with Solar Charging using MPPT or Pulse width. 6) LCD Displays.

Solar Inverters :

- 1) DSPIC BASED IGBT DESIGN.
- 2) MPPT BASED CHARGERS
- 3) SUITABLE FOR SURGE LOAD APPLICATIONS
- 4) LCD BASED DISPLAY FOR UPS AND MPPT CHARGERS.

**DSPIC BASED SINE WAVE UPS -
PURE SINE WAVE UPS FOR ALL DOMESTIC
AND COMPUTER APPLICATIONS RANGING
FROM 600 VA TO 7.5 KVA**

**MPPT CHARGERS - FROM 48 V D.C TO
120 V D.C. WITH LCD DISPLAY**

*Excellent
