

SAMSUNG INDIA ELECTRONICS PVT LTD

Rs 270,000 mn (2013)

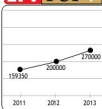

A leading provider of consumer electronics, IT and telecom products in the Indian market, Samsung Electronics has a manufacturing complex for colour televisions, colour monitors, refrigerators and washing machines in Noida. Samsung India also provides employment to over 8000 employees, with around 6000 employees being involved in R&D. In a major achievement this year, Samsung has dethroned Nokia and taken the top slot in the Indian mobile handset market. Samsung plans to make an additional investment of Rs 3500 million in manufacturing and R&D in India by 2015. In March 2013, Samsung India appointed Vineet Taneja as the country head for its mobile and digital imaging business. Taneja will look at ensuring consumer preference for Samsung mobile phones, and improving Samsung's mobile portfolio, along with content and services.

BHARAT SANCHAR NIGAM LTD

Rs 263,960 mn (2012-13)

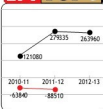

A Government of India enterprise, Bharat Sanchar Nigam Limited (BSNL) aims at ensuring high speed broadband connections and the 'fibre to home' (FTTH) facility to customers. With the government looking to increase rural telephony from the current level of around 39 to 70 by 2017, and 100 by the year 2020 as per the approved National Telecom Policy 2012, BSNL will provide connectivity to uncovered villages through digital satellite phone terminal technology. In September 2013, BSNL and Mahanagar Telephone Nigam Ltd signed a pact to share their infrastructure and provide joint services to corporate customers.

RAKESH KUMAR
UPADHYAY
CEO

BSNL operates mobile, fixed-line and Internet services in 20 of India's 22 telecommunications zones, while MTNL operates in the key Delhi and Mumbai zones. He by intense competition from private sector rivals, both carriers have seen their market share eroding, and lost money in the past four fiscal years.

IDEA CELLULAR LTD

Rs 220,869 mn (2012-13)

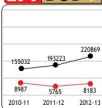

Idea Cellular is a pan-India integrated GSM operator with over 121 million subscribers. It has its own national and international long distance operations and ISP licence. It is India's third largest mobile operator, and claims to hold 15 per cent of the market in terms of revenue share. With a traffic of over 1.5 billion minutes a day, Idea ranks among the top 10 country operators in the world. It operates through a network of over 100,000 2G and 3G cell sites, spread across over 55,000 towns in the country. In September 2013, the Bombay High Court granted interim relief to Idea Cellular Ltd in its Rs 15,000 million tax case by staying an I-T department order.

IBM INDIA PVT LTD

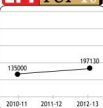

Rs 197,130 mn (2012-13)

IBM, a global technology and innovation company, commenced its operations in India in 1992. In January this year, IBM India appointed Vanitha Narayanan as its new managing director and the regional general manager for India/South Asia (ISA). India remains one of the fastest growing countries for IBM with its presence in over 200 cities across the country and has emerged as a strategic location within the company's global services delivery network. IBM aims to expand its business with Indian car makers, as it plans to launch an online platform in January 2014 that would enhance greater auto manufacturers-supplier collaboration through sharing of electronic documents and other facilities.

LG ELECTRONICS LTD

Rs 160,000 mn (2012-13)

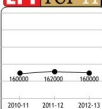

LG Electronics India, a wholly owned subsidiary of LG Electronics of South Korea, is a well known brand in consumer electronics, home appliances, IT hardware and mobile communications. Its manufacturing unit in Greater Noida is one of the most eco-friendly units among all LG manufacturing plants in the world. Its second facility is located at Ranjitsingh, Pune, and has the capacity to manufacture GSM phones, colour televisions, etc. In September 2013, it launched its G2 smartphone in India. In October, the company announced that it may consider manufacturing smartphones in India when it captures 10 per cent share of the Indian handset market.
