

MAHINDRA SATYAM

Rs 70,888 mn (2012-13)

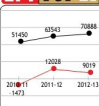

Formerly known as Satyam, Mahindra Satyam, a global business and IT services provider is part of the Mahindra Group. Since July 2013, the company ceased to exist as an individual entity as it has merged with Tech Mahindra. The company's journey involved many ups and downs, including a fraud that brought down the company's valuation by over 95 per cent, within weeks. However, a quick revival took place with a takeover by Tech Mahindra through a government-monitored auction process and its name was changed to Mahindra Satyam. The united front now aims to become a \$5 billion company by 2015 with a team of over 84,000 professionals servicing over 540 customers spread across 46 countries.

DELL INDIA

Rs 65,710 mn (2012-13)

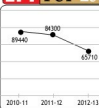

Dell India commenced its operations in 1996 and has been among the fastest growing technology companies in the country. It accounts for the company's largest employee base outside the US. However, in August 2013, according to news reports, the company was planning a significant right-sizing exercise and to shut down its international services operations in Mohali, which employs about 1300 people. In September this year, Dell announced the launch of a new tool, the Online Solutions Configurator, to help partners grow revenue. Earlier, in June 2013, Dell India appointed Ajit Chopra as the new president and managing director. He will be responsible for driving growth for Dell's India market.
