

CANON INDIA PVT LTD

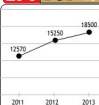

Rs 18,500 mn (2012-13)

Canon India, a wholly owned subsidiary of Canon Singapore, commenced its operations in 1997. This year, Canon India is reworking on its strategy to boost sales, as it has been facing tough competition from smartphones, which have been eating into both compact camera sales. However, the firm will be focusing on mid- to high-end interchangeable lens cameras and digital SLRs. Reportedly, Canon has registered a 12 per cent decline in compact camera sales during the current fiscal year. The major challenge the company faces is the recent price hike of its products in August 2013, due to the rupee's depreciation.
